

2014 Distinguished Graduate

Joel Moncado
Fire Science

"The harvest is plentiful but the workers are few."

-Matthew 9:37

Biography

Joel Moncado was born and raised in San Antonio, Texas. He attended school to academically pursue his goals to become a well-informed fire fighter, and hopes to one day teach a younger generation about the skills and tactics of firefighting.

Upon the completion of his degree, Joel will be a first generation graduate in his immediate family with the intent to immediately pursue an associate's in Emergency Medical Services, and a Bachelors of Science in nursing to further his education. Joel perceives himself attending school throughout his lifetime for it is a lifelong experience to gain wisdom and preach it to a younger generation. His lifelong goal is to one day become a Physician Assistant with the blessing to help others in a time of need.

Joel's success is based on motivation to strive for the best despite many barriers life may present to him in his pathway. His patience in time will guide his dreams to become reality. His success and failures will allow him to flourish into the man of God that will lead others to a path of righteousness.
