- ◆ May 10th 5:00 PM
 Information Night FREE
- ◆ May 12th 5:00 PM
 Information Night FREE
- ♦ June 28th—30th

 Training \$250 18 hours

The Texas Institute for Educational Robotics, TIER, is a program of Alamo Colleges—Northwest Vista College. TIER is an affiliate partner with the FIRST organization and sponsors student and teacher training in educational robotics as well as Qualifier and Championship tournaments for both the FIRST Tech Challenge (FTC) and the FIRST Lego League (FLL). Attend one of the two information nights to learn about FLL and enroll in the teacher/mentor professional development FLL Institute. The three day institute will be a constructionist environment where participants will learn robot construction and programming along with how to coach and sustain a team. Call or email Amparo Garcia, TIER office manager, for more information and to register for either or both the workshop and institute.
