Promotion of Non-Faculty Employees
The Chancellor is authorized to approve the promotion of employees to non-contract, non-faculty positions in the District.

A non-faculty employee who is promoted to a position in a higher salary range will receive a salary adjustment in accordance with the provisions of the Classification and Compensation Administration Regulations.

Promotion of Faculty

Overview
The following procedure is intended to provide a definite structure for the promotion review process and to assist faculty members in developing characteristics requisite to promoted status.

Full-time faculty members may be granted promotion in professional rank after all required criteria have been satisfactorily fulfilled and documented, and after appropriate recommendations have been provided. Promotion in rank is earned through successful teaching, service, and professional growth. Promotion is not granted automatically.

Each college and department may add additional guidelines to those specified in D.8.2.1 with the approval of the VPAA. Each department will review, at least every three years, departmental promotion guidelines and submit any revisions to the appropriate dean/supervisor and VPAA. Faculty may continue under previous departmental requirements for the minimum number of years between promotions (i.e., an Instructor may choose to follow departmental requirements in place at hiring for the three years minimum period required for promotion; an associate professor may choose to follow departmental requirements in place at the time of promotion to associate for the four years minimum period required for promotion, etc.)

Rank: Initial Placement
Since placement on the salary schedule is a function of education experience, rank at the time of initial placement has no effect on class and step determinations.

Faculty are normally appointed at the rank of Instructor. On the recommendation of the President, and with the concurrence of the Chancellor, a faculty member may be appointed at the rank of Assistant Professor, provided that the candidate has completed a doctoral degree in the teaching field.

Promotion in Faculty Rank

Eligibility
Eligibility criteria pertaining to time in a particular rank and approved credit courses appropriate to the faculty member’s teaching assignment are as follows:
1. To be eligible for promotion to the rank of Assistant Professor, a faculty member must have completed a minimum of three years of full-time employment as an Instructor with the Colleges and must have earned 12 semester hours or equivalent credit above the qualifying degree in approved courses from an accredited institution. One-half of these credits must be related to the teaching field. The minimum requirement for promotion in rank to Assistant Professor is a Master’s degree or, for faculty members in occupational education and technology, an appropriate Baccalaureate degree or approved equivalent.

2. To be eligible for promotion to the rank of Associate Professor, a faculty member must have completed a minimum of four years of employment as an Assistant Professor with the Colleges and must have earned 24 semester hours or equivalent credit above the qualifying degree in approved courses from an accredited institution. One-half of these credits must be related to the teaching field.

3. To be eligible for promotion to the rank of Professor, a faculty member must have completed a minimum of five years of employment as an Associate Professor with the Colleges and must have earned 36 semester hours or equivalent credit above the qualifying degree in approved courses from an accredited institution. One-half of these credits must be related to the teaching field. The rank of Professor is reserved for persons who have distinguished records of education, education-related activities, and service.

Nine or more months of service in a full-time faculty position during a fiscal year constitute a year of service. The requirements for tenure track (probationary) faculty assignments to be eligible for promotion and tenure are specified in D.2.5.1. A faculty member may not apply for promotion and tenure in the same academic year.

An approved course is one for which prior approval has been obtained from the appropriate Vice President/Dean/Director. Seminars, conferences, and other noncredit activities may be applied to credit requirements. Ninety-six clock hours (or 9.6 CEUs) shall be equivalent to three semester hours in the assessment of credits for promotion.

**Timeline for Request for Promotion**

Beginning Fall, 2012, faculty cannot apply for promotion in the year they are eligible to request consideration of tenure.
