

Bond Election

The Alamo Colleges District is planning to hold a May 2017 bond election for \$450 million in order to fund projects at its Northeast Lakeview, Northwest Vista, Palo Alto, San Antonio and St. Philip's Colleges, and across Bexar County. At current property value assessment levels, the issuance of the bond will not cause an increase in the District's tax rate for debt service from the present rate.

1) Renovations

More than 33% of the Alamo Colleges District's facilities, constituting more than 2 million square feet, are more than 25 years old, many more than 50 years old. The bond will provide funds to upgrade infrastructure, redevelop interiors and exteriors and repurpose many of these facilities.

2) New Facilities

The bond will also fund new facilities including Centers of Excellence to address anticipated population growth and the community's educational priorities, which include:

- Expanding training for high demand, high growth business and industry occupations in the region;
- Increasing emphasis on education in science, technology, engineering and mathematics (STEM) fields;
- Supporting our programs with smart classrooms and labs, as well as specialized program spaces; and
- Serving a growing number of students as population growth in our area is anticipated to increase by 1 million residents by 2035.

3) Geographic Expansion

The bond also will provide funding for Regional Centers and expansion of current college facilities to continue to provide educational services to all the communities in our service area. The population in our service area continues to grow, particularly in the north, south and west areas of the city and county. The bond will fund the acquisition of additional land to expand geographic distribution of our Regional Centers in order to make our education and training programs more accessible.

4) Technology Infrastructure

The bond will address the rapid expansion of IT and Technology demand in the learning and student support enrollment area by funding ongoing infrastructure development.
