Students who complete the FAFSA and submit all requested documents to the Student Financial Services office will be considered priority applicants.

Documents that need to be submitted include

- Completed FAFSA
- Complete Verification Documents
- All other requirements posted in ACES

Remember!
Students who meet the Priority Processing Guarantee Date will have their financial aid application processed and aid eligibility determined before the first day of class.

Status updates and award information should be monitored in ACES.

The Priority Processing Guarantee Date applies to FAFSA applications and documents requested through the FAFSA Process only. Financial aid Appeals, Special Conditions, and other non-FAFSA related processes are not included in the priority processing of a financial aid application.
