KEEP THE WORLD MOVING

Would you be interested in working in the second largest employment sector in America? Logistics, the support system behind every commodity, offers job opportunities in 17 different specialty areas ranging from warehousing and transportation management to purchasing and customer service.

With five different certificates and our 60-hour degree plan, you could be on your way to a rewarding career in one of the fastest growing industries in the world. This is an increasingly popular career field with global implications as products are imported and exported all over the world. It can lead you right to the front office.

WHY DO I NEED A DEGREE IN LOGISTICS?

According to the U.S. Department of Labor, the U.S. will generate approximately 270,200 logistics related job openings each year and close to 1.1 million by 2016. Entry-level logistics managers with college degrees earn between $40–43K per year. Senior-level logistics managers can earn over $200k per year. The degree makes the difference.

Palo Alto College is the area’s key source of educated logistics managers who will help put San Antonio on the domestic and international logistical map!
FAST-TRACK YOUR LOGISTICS CAREER

PROGRAM HIGHLIGHTS

The curriculum covers the major logistics components and will expose students to many real-world experiences. The International Logistics Management course takes you to businesses that operate internationally, like the Port of San Antonio and the Port of Corpus Christi.

Our Custom Brokerage course exposes students to a new world of international and domestic trade and regulations. And our capstone course, the Logistics Internship, gives students the opportunity to work in a logistics management position in a local company while working under the tutelage of a professional logistics manager.
