1. On your Windows 7 device, click the Wi-Fi icon located at the bottom right corner of the toolbar.

2. A window with available network connections will open. To refresh the list of available networks, click on the Refresh Icon.

3. Select “Alamo_Guest” from the list of available network(s). To ensure your device will automatically connect to this wireless network in the future, check the box that says ‘Connect automatically’. Next, click on the Connect button.

4. Open a web browser, enter your Alamo Colleges Student Email, and tap “Log In”. You are now connected to the Alamo_Guest wireless network.
