There are two courses in the Phlebotomy training program:

- **PLAB 1223 Phlebotomy (2-1-3)**  
  Prerequisite: INRW 0420  
  Skill development in the performance of a variety of blood collection methods using proper techniques and universal precautions. Includes vacuum collection devices, syringes, capillary skin puncture, butterfly needles and blood culture, and specimen collection on adults, children, and infants. Emphasis on infection prevention, proper patient identification, labeling of specimens and quality assurance, specimen handling, processing, and accessioning. Topics include professionalism, ethics, and medical terminology.

- **PLAB 1263 Clinical Phlebotomy (2-0-8)**  
  Prerequisite: PLAB 1223  
  A health-related, work-based learning experience that enables a student to apply specialized occupational theory, skills, and concepts in the areas of phlebotomy and specimen processing. Direct supervision is provided by the clinical professional.
