Student Perceptions of Engaged Learning: Students learn and retain more information as well as succeed at higher levels when they are actively involved in learning rather than passively receiving information.

Student responses suggest that there are opportunities to heighten the level of collaborative learning that happens both in and outside of the classroom. 42.6% of respondents report that they never worked with classmates outside of class to prepare assignments. 41% of respondents reported that they never made a class presentation.

Percent of Students Responding “Never” to the following question: In your experience at this college during the current school year, about how often have you done each of the following activities?
