Dear Dr. Loston:

The following action regarding your institution was taken at the June 2011 meeting of the Board of Trustees of the Southern Association of Colleges and Schools Commission on Colleges.

The Commission on Colleges reviewed the institution's procedure addressing the timely reporting of substantive changes. No additional report is requested.

This review was conducted following the institution's failure to report an Associate of Applied Science in Power Generation and Alternative Energy degree program. The institution's procedures for reporting substantive change must continue to address all types of substantive changes as defined in Commission policy, "Substantive Change for Accredited Institutions of the Commission on Colleges."

We appreciate your continued support of the activities of the Commission on Colleges. If you have questions, please contact the staff member assigned to your institution.

Sincerely,

A handwritten signature in cursive script that reads "Belle S. Wheelan".
