2016 Quality Enhancement Plan Update

Student Focus Groups are being hosted to get a student perspective on the Quality Enhancement Plan (QEP) topic “Personal Responsibility”. There are currently four focus groups scheduled, three at MLK campus and one at SWC. Incentives are being provided in order to get student participation. Broad-based involvement is being sought in order to identify a significant issue focused on improvement of student learning. Personal Responsibility has been chosen as the issue. Now the question is what does the term “Personal Responsibility”, as it applies to academic success, mean to students?

The results of the student focus groups are leaning toward narrowing the issue of Personal Responsibility to either Academic Responsibility or Ethical Responsibility.

The Call to Conversation for SACS COCS & QEP is Tuesday, November 11, 2:00 P.M. on the 3rd floor of the SLC in the Bowden Alumni Center. It is open to all employees.
