---

**Quote by Dr. Davis:**

“What I gave I have, what I saved I lost.”

---

**SPC held retirement services for Dr. Davis during the month of October. Dr. Davis is best known for discovering a process for ‘instantizing’ mashed potatoes and the sugar that gives frozen desserts their texture. While working on how to keep saws from gumming up when sawing wood, he was part of the team that discovered a wood sugar that is now used to produce industrial glue. The SPC Science building will be renamed in his honor.**

---

**SPC Faculty Member Holds Book Signing**

Faculty member and author Diana Lopez held several book signing sessions and readings from her recently published book “Confetti Girl.”

---

**Hidden Talents of SPC Facilities Superintendent**

Natural Sciences faculty member and SPC Director of the Pre-Freshman Engineering Program (served: 1998-2009).

---

**Volunteer Income Tax Processors Needed**

Consider representing the college as an Internal Revenue Service-certified volunteer income tax processor at the college’s 2010 federal income tax preparation service site in the Bowden Building from January 2010 through April 2010. NSF Grant Award - $396,648
Faculty members Herb Pennick, Cindy Katz and Dr. William Davis (retired) were instrumental in St. Philip’s College being awarded The National Science Foundation grant to help recruit, retain and educate minority students for careers in science, technology, engineering and math through a program titled “Project GeNex: Educating the Next Generation of STEM Professionals.”

Project GeNex strives to improve STEM education at St. Philip’s College and increase the number of STEM professionals in the nation’s workforce. Three objectives are targeted to achieve this goal: increase high school student recruitment, increase student retention, and increase graduation and transfer rates of STEM students. The transfer students are directed toward four-year institutions where they will complete undergraduate degrees in STEM disciplines. Articulation agreements with several universities are established to streamline student transfer.

Other Grants Received by St. Philip’s College
- $396,648 provide funds that address issues related to the needs of women and girls or that provide information to educate and benefit the public on those issues. Faculty member – Renilla Mitchell.

SPC was awarded a Head Start Grant in the amount of $145,647 from the Department of Health and Human Services. Instrumental Faculty member – Pam Ray.

The Big Read – $10,000 Tim O’Brien. Kicked off The Big Read at SPC with a reading from his novel The Things They Carried. Faculty Members-Sean Nighbert, Mike Moran, Janet Flores, Lauri Humblendent, and Kelli Wilder all participated in the writing of the Big Read grant.

TheEC awarded SPC $80,000 under the FY 2010 & FY 2011 Work-Study Student Mentorship Grant. Staff member - Ana Lisa Garza.

College Connections - $189,000 to build awareness among high school seniors of a college education, increase rates of participation in college, increase the number of students who successfully transfer to a four year college.

CCAMPS Grant – $138,460 Child Development Center - Child Care Support. Staff member – Sharon Evans.

Department of Transportation - $90,000 Commercial Motor Vehicle Operator Safety Training. Staff member – Fred Landeros.

Faculty Member Pam Ray asked for scholarship donations during her promotion celebration and raised $1,155.

SPC Faculty Member Receives Lifetime Achievement Award

The Society of Educators and Scholars awarded “The Lifetime Achievement Award” to Sounny Slinfe, Professor in SPC Math Department. Sounny was one of only two Professors from the United States to receive this prestigious award.

St. Philip’s College named “Military-Friendly” G.J. Jobs magazine has listed St. Philip’s College in its newly released 2010 list of Military-Friendly Schools. Mr. John Westerbeek, Coordinator of Veterans Affairs at St. Philip’s College believes “this listing will pay big dividends”.

The veteran-owned magazine began researching its list in 2008 and looked at more than 7,000 schools.
