

# San Antonio College Law Enforcement Academy

## Essentials of Surveillance and Counter Surveillance #2028

Covert operations in Law Enforcement often call for Surveillance on suspects. Terrorists and Cartel members and other criminal operations have been known to conduct extensive surveillance on Law Enforcement officers and military personnel to gain knowledge of patterns of life of the officers and family members.

The best way to understand surveillance is to become proficient in counter surveillance. In doing so, we can help keep officers safer from those intending to harm LE, Military members and their families.

This course focuses on the essentials of conducting surveillance for legitimate LE purposes and also focuses on the fundamentals of conducting counter surveillance operations to keep the individual LEOs safe.

### **Course Objectives:**

Upon completion of this 2-day course in Surveillance and Counter Surveillance, Students will have a practical and proficient understanding of:

1. The essentials of conducting quality surveillance without burning the operators.
2. How to conduct counter surveillance operations.
3. How to design a basic Surveillance Detection Route (SDR).
4. How to design and run an intricate SDR against multiple Surveillants.
5. Student will conduct a full day mission profile exercise as both surveillants and counter surveillants

**Course Cost:** Open Enrollment Only: 8 Hour Day, Minimum of 10 Students @ **\$150.00** each  
Maximum of 15 Students

### **Upon Completion:**

Students will receive a course completion certificate for 16 hours of training. The 16 hours will be reported to TCOLE as part of your training record.
