### Total Scholarship Awards by Academic Division

#### Institutional Planning, Research & Effectiveness

- TBD, Director
- TBD, IT Data Analyst
- Shanna Bradford, Coordinator of Measurement & Evaluation

As seen in Figure 34-1 (above), SPC total overall scholarships reached a 3-year high during academic year 2019 (\$1,590,770.83) with the largest increase in awards occurring in the Health Science division (\$515,852 in AY 2019 compared to \$159,342.11 in AY 2018). Applied Science and Technology also saw an increase in scholarship award funds; divergently, Arts and Sciences experienced a decline for the second year.

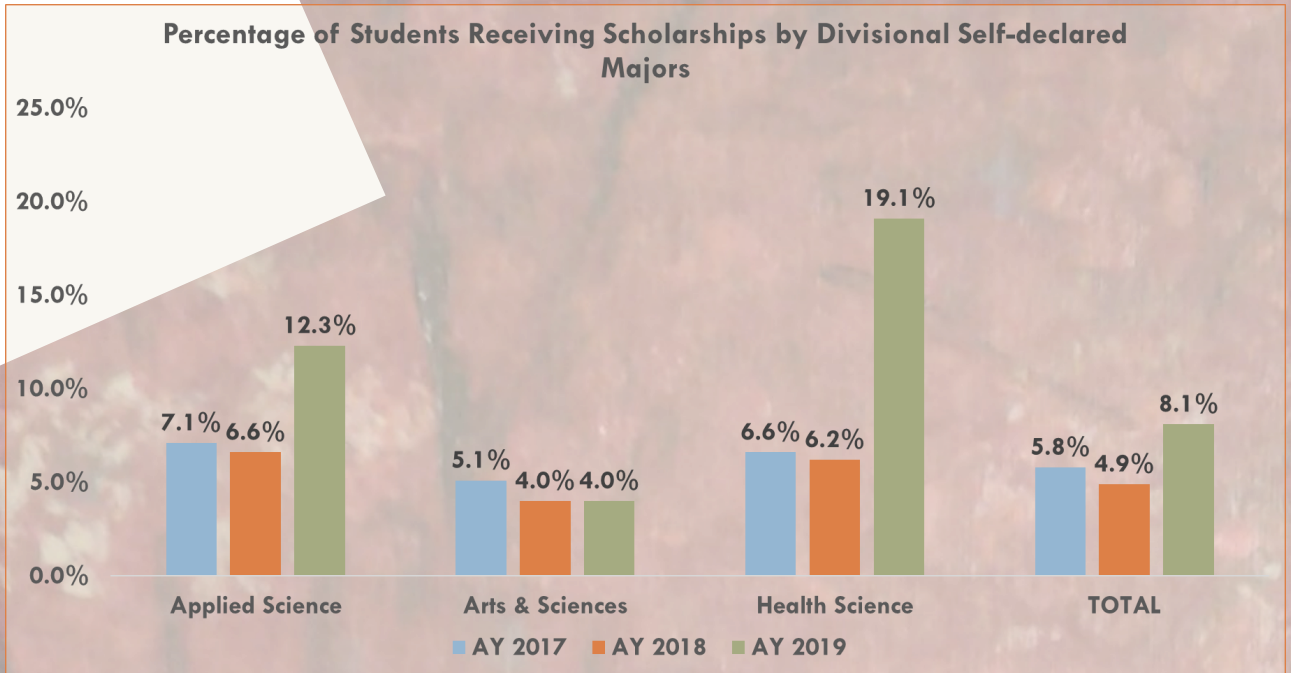

Figure 34-2 Percentage of students receiving scholarships by division as determined by self-declared major  
Data Source: ACD DSO Financial Aid and IPRE

As with scholarship award dollars, the percentage of students receiving scholarships rose in Applied Science and Technology and Health Science, displayed in Figure 34-2 (above). These increases contributed to the overall rise in percentage of students receiving scholarships. Although there was no decline in Arts and Sciences percentage of students receiving scholarships, this percentage remained at 4% for the second year.

In Figures 34-3—34-5 (below), scholarship dollars by department are featured. As shown, Natural Sciences (Arts and Sciences), Health Care Science and Early Childhood (Health Science), and Business Information Solutions (Applied Science and Technology) awarded the highest dollar amounts during AY 2019.
